*PROTOCOLS FROM THE DESK OF DR. ANTHONY MARTIN

IBS PROTOCOL

Pathology:

We refer to IBS as 'angry bowel syndrome' because the gut is angry and sensitive to everything when in a flare up. It's important to address the cause, which is inflammation of gut lining caused by Leaky Gut Syndrome.

There are three stages of IBS symptoms.

1. Stage 1 - In between bouts. They have minimal or no digestive symptoms and hope they're cured.
2. Stage 2 - 'Here it comes'. Slight pain and change in bowel movements.
3. Stage 3 - Angry. Full blown IBS symptoms and almost everything they eat hurts or bothers their gut

OFFICE USE ONLY

Protocol:

Regardless of stage, there are three steps to fixing IBS.

Eliminate symptoms:

1. Remove Allergy: Most common is dairy, gluten, eggs.
2. Rest the gut in stage 2 or 3: intermittent fasting
3. Take Digestive Enzymes, Probiotics, IBS formula

Reduce Inflammation:

Digestive enzymes, probiotics, and IBS formula
Curcumin

Rebuilding the Gut:

Probiotics, Digestive Enzymes, Bone Broth Protein
